

Traumatic Brain Injury Data Collection

Delaware Profile

Data Collection Information

Injury Core Capacity Development

Delaware is one of 28 states receiving CDC funding to conduct injury surveillance as part of an overall plan for injury control. The general injury data collected for the Core Capacity program examine causes of injury rather than the nature of the injury itself. Delaware is one of four Core states that receive enhanced funding to monitor traumatic brain injury (TBI) risk factors.

State Injury Indicators Data

Delaware is one of 26 states participating in the Injury Indicators program coordinated by CDC, with input from CSTE and STIPDA. Participating states voluntarily analyze hospitalization and death data to track, monitor, and report on various injuries and risk factors, including TBI. Note that this program uses a restricted definition of TBI.
